

STUDENT AGREEMENT FOR ACCEPTABLE USE OF THE DISTRICT'S TECHNOLOGY RESOURCES

You are being given access to the District's technology resources, meaning electronic communication systems, internet access and electronic equipment which may include an e-mail account for educational use.

The purpose of the Rusk ISD technology, network, internet access and communication services is to promote excellence in Rusk schools by facilitating resource sharing, innovation, and communication.

As a user of the District's technology resources, you will be able to access:

- An unlimited number of databases, libraries, and resources;
- The Internet and other electronic information systems/networks, which can be used to communicate with schools, colleges, organizations, and individuals around the world; and
- Shared electronic equipment, which may have stored temporary Internet and electronic files of other users.

Please note that the Internet is a network of many types of communication and information networks. It is possible that you may run across areas of adult content and some material you (or your parents) might find objectionable. While the District will use filtering technology to restrict access to such material, it is not possible to absolutely prevent such access. It will be your responsibility to follow the rules for appropriate use. Students will participate in an age appropriate internet safety course in accordance with the federal Children's Internet Protection Act (CIPA). The District firmly believes that the valuable information and interaction available on this worldwide network far outweighs the possibility that users may procure material that is not consistent with the educational goals of the District.

With this educational opportunity comes responsibility. It is important that you read the applicable District policy, administrative regulations, and agreement form and contact the Rusk ISD Technology Director, at 903-683-2502 if you have questions. Inappropriate use of the District's technology resources may result in suspension or revocation of the privilege to use these resources, as well as other disciplinary or legal action, in accordance with the Student Code of Conduct and applicable laws.

If you are being issued a District technology device, you will be given additional materials addressing the proper use, care, and return of these devices.
